Artificial Intelligence in your everyday life

WARM UP

1. In pairs, look at the pictures below and answer the following questions:

- a) How would you define Artificial Intelligence or AI?
- b) What activities are computers better at than humans now? Which are humans better at than computers?
- c) Computers get faster and better every year. Is it just a matter of time before they become more intelligent than humans?

VOCABULARY

2. We can change the form of a word (e.g. from a verb to a noun) by adding suffixes. Use the words given in capitals at the end of sentences and the suffixes below to make new words and fill in the gaps.

Many times researchers study some areas to satisfy their but as a result new things are invented. **CURIOUS**

Engineers can now apply technological solutions to automatize many tasks that required human input. **ADVANCE**

Machines are not always . And sometimes break down so we should limit how much we depend on them in everyday life. **RELY**

Some people believe that AI is such a technology that it will change our lives just as the
Internet or TV did TRANSFORM

3. In groups, write down as many words as you can with the suffixes given to you by the teacher and put them in the table below.
Choose 2 words from your list and create 2 sentences on separate piece of paper similar to the sentences from ex. 2. Exchange the sentences with another group and ask them to fill in the gaps likely various ridiculous ridiculous ridiculous ridiculous sentences with another group and ask them to fill in the gaps ridiculous file colored sentences with another group and ask them to fill in the gaps ridiculous file colored sentences with another group and ask them to fill in the gaps ridiculous file colored sentences with another group and ask them to fill in the gaps ridiculous file colored sentences with another group and ask them to fill in the gaps ridiculous file colored sentences with another group and ask them to fill in the gaps ridiculous file colored sentences with another group and ask them to fill in the gaps ridiculous file colored sentences with another group and ask them to fill in the gaps ridiculous file colored sentences with another group and ask them to fill in the gaps ridiculous file colored sentences with another group and ask them to fill in the gaps ridiculous file colored sentences with another group and ask them to fill in the gaps ridiculous file colored sentences with another group and ask them to fill in the gaps ridiculous file colored sentences with another group and ask them to fill in the gaps ridiculous file colored sentences with another group and ask them to fill in the gaps ridiculous file colored sentences with another group and ask them to fill in the gaps ridiculous file colored sentences with another group and ask them to fill in the gaps ridiculous file colored sentences with another group and ask them to fill in the gaps ridiculous file colored sentences with another group and ask them to fill in the gaps ridiculous file colored sentences with another group and ask them to fill in the gaps ridiculous file colored sentences with another group file c
4. Watch a video [What is Artificial Intelligence (or Machine Learning)?] about AI (up to 3:51)
and write down the answers to these questions:
a) What does the AI field of science deal with?b) When was the term "artificial intelligence" invented?c) What are the factors responsible for the growth of AI in the recent years?
d) How is AI being used now?

5. Select the right option in the sentences below, then watch the video again to check your

b) The term "artificial intelligence" was first crafted/coined by Dartmouth professor John McCarthy.

a) Al is designed so you don't realize there's a computer *calling/firing* the shots.

answers:

There are **NUMBER** easons why we should create artificial intelligence. **NUMBER**

- c) And now thanks to *advances/advantages* in processing speeds, computers can actually make sense of all this information more quickly.
- d) Tech giants and *venture/visiting* capitalists have bought into AI and are infusing the market with cash and new applications
- e) That means AI can manifest itself in many different ways. Let's break/take down the options.
- f) Natural language processing makes these bots a bit more shallow/sophisticated.

6. In pairs, discuss the following points:

- 1. How does Artificial Intelligence impact our life today?
- 2. How could artificial intelligence technology be used in the future?
- 3. What are the key advantages of this technology in your opinion?
- 4. How worried should we be about AI replacing our jobs?
- 5. What aspects of AI can make it dangerous?
- 6. Why might some people think that too much technology in our lives can cause problems?

7. Watch a video from Google I/O conference 2018

[https://youtube/D5VN56jQMWM] and consider these points:

- a) What's your opinion of this use of AI technology?
- b) Which aspect of this technology do you find most surprising?
- c) Would you be willing to use it yourself? Why/Why not?

www.esl brains

YOUR TASK :

For this session, you have to work on an example of Al.

- -define AI in your own words
- -explain your example : history and how it works
- -find illustrations to help the others understand.
